EDUCATION

Bharati Vidyapeeth college of Engineering, Shivaji University

1st-year CGPA 7.29/10

2nd-year CGPA 8/10

HSC Bhogawati Mahavidyalaya Kurukali

MSBSHSE

Percentage: 64.17%

SSC Radhanagari Vidyalaya Radhanagari

Percentage: 83.20%

SKILLS

- C Programming
- CPP
- Python
- Core Java
- Basic JavaScript
- HTML

HOBBIES

- Sketching
 - Reading
-

EXPERIENCE

Anyatam - Adhyayan Education Services Pvt. Ltd

Software Developer Intern

1 May - 31 May 2024

PROJECTS

1) Chat app using socket programming in Python

At its core, this chat application aims to demonstrate the fundamental principles of network-based communication and graphical user interface (GUI) development within the Python ecosystem. It establishes a platform for two or more users to exchange real-time text messages over a network.

2) Currency Converter Project Using Core Python

Developed a currency converter application to facilitate real-time conversion between multiple currencies. Utilized core Python programming to build the application, ensuring efficiency and accuracy.

3) Auto Registry Solution Project in Core Java

Developed an auto registry solution to streamline the registration and management of vehicles. Utilized core Java to ensure a robust and scalable application.

4) VaultAccess Manager Project Using Core Java

Developed a secure vault access management system to handle sensitive data storage and retrieval. Utilized core Java to build a robust and scalable application.

ACHIVEMENTS

- Certificate of completion Python programming at Excel computers Kolhapur
- Solved over 139 problems on Codechef,
- Solved over 67/115 problems OF PYTHON on hackerrank
- Certificate of attendance full stack web development internship program organized by Edureka
